

AFFODABLE, SIMPLE AND USER FRIENDLY LOCAL MADE QUEUE MANAGEMENT SYSTEM APPLICATION  
DESIGNED BY ICT TEAM AT THE BENJAMIN MKAPA HOSPITAL

Figure 1 ticket placer

Figure 2 after placing a placer a ticket pops out

Figure 3 a request is automatically queued in ascending order (first come first out) waiting for the service provider to call the client, the call will then be displayed on digital signage

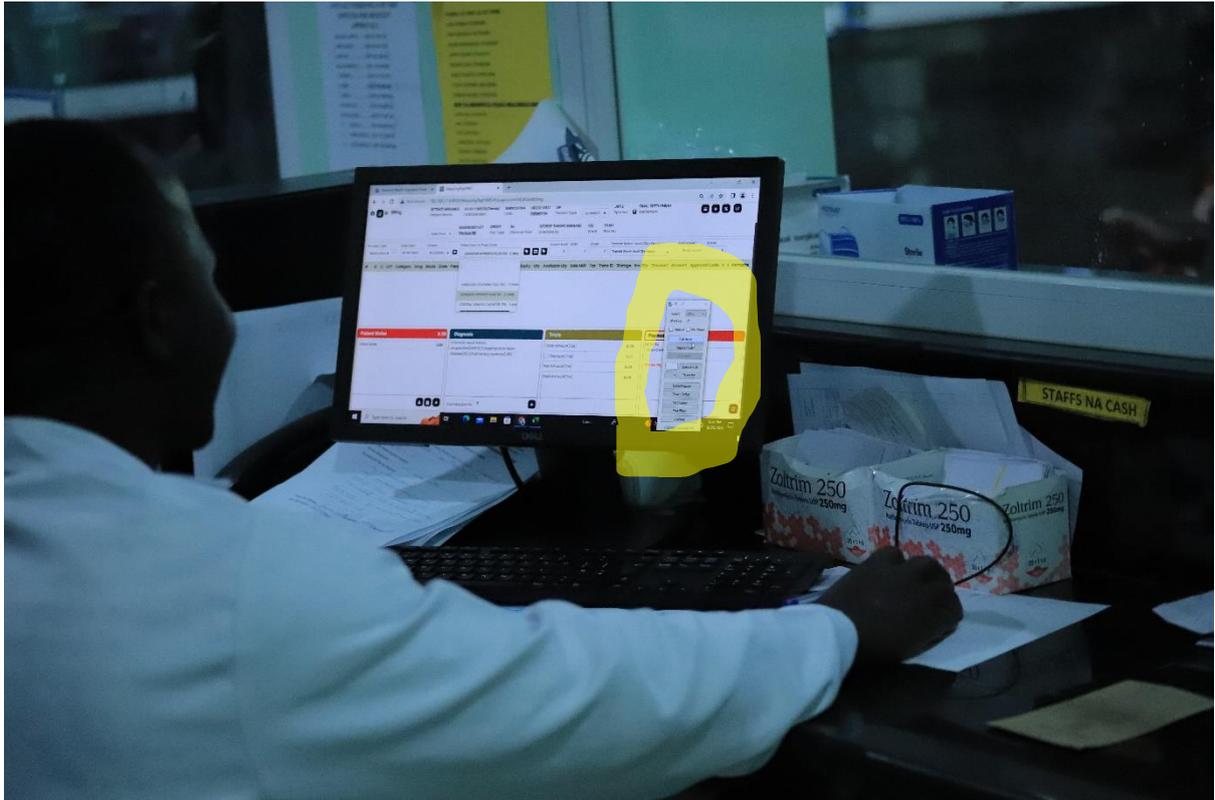

Figure 4 a service provider accesses the data through desktop application (yellow marked) assisting him to fairly call clients.
